## What you get

### Organic Compass

Ask any question about organic farming, in your own language. Get expert-backed answers — any time of day.

### Farm Planner

Try the numbers on screen before you commit on the ground. See the costs, the timing, and the outcomes of converting.

### Local Knowledge Hubs

Advisors, events, and field trials near you — in Spain, Ireland, Poland, Lithuania, and Bulgaria.

### Conversion Plans

A step-by-step roadmap built with your advisor — based on your farm, your goals, your timeline.

### Guides & Training

Practical guides, courses, and videos — drawn from 20+ EU research projects and expert networks.

### Farmer Community

Talk with other farmers. Share what's working. Get answers from people who've been there.

## What's in it for you?

### Earn more from your farm

Use validated techniques and expert support to make better decisions — and improve your margins.

### Make better decisions

Practical knowledge and tools at hand for the daily calls you make on your farm.

### Stay ahead of change

Keep up with market demands and new regulations — learning from experts across Europe.

### Lower your risk

Reduce risks from weather and crop failure — by learning from field trials, cross-visits, and other farmers.

### Turn research into results

Bring research to your farm through on-farm trials and direct collaboration with experts.

## We need you

OH-FINE only works if farmers shape it. Your hands-on experience — what works, what doesn't, what's missing — is what makes the platform actually useful.

### Tell us what you think:

-  What's holding you back from going organic — or going further?
-  What barriers do you see in your day-to-day practice?
-  How could policies — local, national, EU — actually help?
-  What benefits have you seen for your soil, biodiversity, or resilience?

## How to take part

### Join the talk

Discussion groups and cross-visits with other farmers

### Learn

Workshops, webinars, and short practical courses

### Test on your farm

Try new tools and tell us what actually works

### Share your view

Quick surveys to help shape what we build

### Meet up yearly

Annual meetings to see progress and what's next

## Join the community

Scan with your phone to get started — free, no commitment, built with farmers.
